

ENGAGEMENT MANAGEMENT

We call Flow the emotional state we feel when we are in performance and well-being. Emotions are a determining factor in individual and collective performance. essential to ensure that the context is appropriate to stimulate sustainable performance.

How can you ensure that the primary qualities of your employees are used regularly?

What do they need to remain committed over the long term?

What is the main strength of each individual in a team?

ENGAGEMENT MANAGEMENT

Thanks to the “emotional compass” we can visualize the diagnosis of your employees' Flow and thus identify improvement actions within your company. By anticipating productivity drops and determining which key skills are under-employed on a daily basis, praneo helps you to create an ecosystem of solutions for your transitions.
